Dear Gary,

Many thanks for your nice note. I enjoyed my visit at Vermont, found those I met and spoke to anything but the predicted stodgy, unconcerned and a number of you quite stimulating.

If my reply and thanks are inadequate, please put it down not to bad manners but over-involvement. I'm most of the way through a book on what is current in NO, which I think you will soon see comes from my work alone, having temporarily laid aside Whitewash III which, in turn, I had laid aside to do an anti-Manchester book for which I have a contract. All are promised, and it is too much, though I'll do them all. This NO book will have, in fact will be, mostly appendix, what I'd planned to include in III on that part of the subject. The text is mostly drafted now.

Thank charming (and as you must have noticed) pretty Jean for her flattering note. I'd make one amendment. She is the anti-Feta cheese girl! Even so, she brightened dinner.

When you speak to Nick Mueller please ask him to send me the citation in whatever red tape Internal Revenue goes by that says an honorarium is tax exempt. I need this for 1966, not 1967, so I'd appreciate it if he can do it soon.

Sincerely,
